

Introduction

Pelican Chemical offers premium-quality EDTA Chemicals formulated to deliver effective chelation and metal ion control across a wide range of industrial applications. Known for their high purity, excellent water solubility, and consistent performance, our EDTA chemicals help improve process efficiency by binding unwanted metal ions and preventing scale formation.

Features

- Excellent chelating and complexing properties
- Binds calcium, magnesium, iron, copper and other metal ions
- Helps control metal-ion concentration in water
- Supports scale and deposit management
- Suitable for industrial water-treatment formulations
- Useful in cleaning and descaling formulations
- High stability of metal-EDTA complexes

Specification

Chemical Name	Ethylenediaminetetraacetic Acid
CAS No.	60-00-4*
Molecular Formula	$C_{10}H_{16}N_2O_8^*$
Molecular Weight	292.24 g/mol*
Appearance	White to Off-White Crystalline Powder
Odour	Odourless
Solubility	Soluble in Alkaline Solution
Assay	$\geq 99\%^*$
Shelf Life	24 Months

Packaging

Only 25,50,55,60 Kg Packaging available

Note: We make sure that our offered chemical is formulated in a hygienic environment.
